### High-quality tabloid (11" x 17") color copies right in your workspace.

Your business thrives on color—and large, impactful color documents are part of your daily communications. Think about how many presentations, ad layouts, blow-ups of photos and illustrations, information-packed spreadsheets, signs and posters you distribute. Not to mention the countless letter- and legal-size pages with color in them. Now figure how much all that color copying is costing you...

You need an affordable in-house color copy system to increase your productivity—and lower your expenses. In other words, you need an OKI® C9000 Series Wide-Format Color Copy System. Rather than running to the corporate or neighborhood copy center every time you need tabloid-size color copies (or postcard-size or any size in between), simply make your copies on your own convenient machine!

**Built-in productivity and reliability.** Set up your C9000 Series CCS on its custom cabinet/stand and experience copy-center performance, even with limited space. Both the C9200n and C9400dxn CCS models produce up to 99 copies of an original page. Just place up to 50 sheets in the Auto Document Feeder, enter copying instructions and, in a conveniently short time, you have professional-looking material.

For excellent output, take advantage of OKI Single Pass Color® Digital Technology—delivering fast output speed, high resolution, long-lasting consumables, and the ability to print on card stock up to 110 lb. in weight.

Use the system as a walk-up color or monochrome copier (no PC required), or enhance the productivity of your workgroup or department by using it as a fast network printer. Both C9000 Series CCS models come factory-configured with the OkiLAN 6200e 10/100 Base-T Ethernet internal print server, so they're right at home in the most popular shared environments.

And both models can print on sheets as large as 12.9" x 35.4"!

For high-quality, tabloid-size, permanent color prints at an affordable price, the OKI C9000 Series Wide-Format Color Copy Systems truly offer "The Only Color For You."
